Catarrrhal Deafness Cannot Be Cured
 by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrrhal deafness, and that is by a constitutional remedy. Catarrrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it is in a condition to become a source of infection. The inflammation can be reduced and this tube restored to its normal condition, hearing will be restored. Many cases of deafness are caused by catarrrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrrh Medicine acts thru the blood on the mucous surfaces of the system.
 We will give One Hundred Dollars for any case of Catarrrhal Deafness that cannot be cured by Hall's Catarrrh Medicine. Circulars free. All Druggists, 75c.

SCHOOL MUSICAL A DECIDED SUCCESS

Wednesday night the school play, "Savageland," a musical comedy, composed of some 30 people, all students of the school, was presented to the public in a real operatic way. The entertainment was well enjoyed by a crowded auditorium, and there is no doubt but every one present felt as though he had a very enjoyable evening and received his money's worth.

The play was directed by the superintendent, J. R. English, and we feel as though it could have hardly been done better. Every part of the entertainment was amusing. Special costumes and wigs were used for the performance, having been obtained from a supply house in St. Louis.

So well was it appreciated, that it was presented again tonight. Here's hoping that Mr. English and those associated with him will give our people another successful play soon.

J. M. Hamilton was transacting business in the county seat Monday.

A VOLUNTARY TESTIMONIAL.
 J. R. Black Medicine Co., Kennett, Mo.
 Gentlemen—My little boy had a severe case of sore eyes. I sent to the druggist for the best medicine he had for sore eyes. He sent me a bottle of Dr. Black's Eye Water. He was out of school only one day after using it. It cured him immediately. Any one is at liberty to confirm this statement by writing to me at 411 Jefferson Avenue, Johnson, Ark. Mrs. J. H. SIVUSA.

ONE-FOURTH WORLD'S WOMEN IN CHINA

Seventy Per Cent. Employees in
 Shanghai Cotton Mills Women
 and Children Working
 Twelve Hour Shifts.

One-fourth of the women in the world are Chinese—200,000,000 of them. They are going into industry in large numbers to work long hours and for little money.

In Shanghai, for instance, seventy per cent. of the employees in the cotton mills are women and children. Working hours for spinners are from six in the morning until six at night and from six at night until six in the morning. Weavers work from 5:30 in the morning until seven at night and the wages are from ten to twenty cents a day. Hundreds of women are employed in silk flature mills, standing hour after hour washing cocoons in basins of boiling water in the excessively hot rooms necessary for apartments where fine silk is spun. In Canton alone, there are 150,000 women in factories at a maximum wage of forty cents a day for women and of fifteen cents a day for girls.

As part of its program of world service for women the National Young Women's Christian Association is expecting to put on its staff of secretaries in China an expert on industrial conditions who will develop social work in factories, and work to improve conditions for women employees. This work will include the introduction of recreation and social life among the workers and of health lectures and educational classes.

Y. W. C. A. STUDENTS TEACHING IN CHINA

Physical Training School Maintained in Shanghai.

The vast majority of Chinese men remember their mothers as cripples. Many a girl wanders into a mission school who has not had her own feet bound, but has never seen a woman of her own class who could walk, and, therefore, she walks in a most ungainly fashion—scarcely conscious of her natural feet.

The Chinese Medical Association—an Association composed only of Chinese physicians mostly graduates from American and English institutions—have asked the entire educated community of the country to co-operate in better health for the children of China. All the Mission Boards operating in China felt that one of the greatest contributions the Young Women's Christian Association could offer to the health of China would be to establish a normal school for the training of physical directors.

Accordingly, in Shanghai, which is the greatest port in China, the national committee established such a school in 1914. The school has won favor with all educationalists, both missionary and government. There have already been nine graduates from this school. Miss Ying Mei Chun, a graduate of the Wellesley School of Physical Education, has been dean of the school. Graduates of the school are scattered from Canton to Peking, teaching with conspicuous success in twelve mission and government schools.

JAPANESE DOCTOR IS Y. W. C. A. OFFICIAL.

Dr. Tomo Inouye of Tokyo, Japan, treasurer of the National Committee of the Young Women's Christian Association in Japan. Dr. Inouye has been

particularly interested in the public health and recreational plans of her city for some time and is medical inspector for girls in the public schools of Tokyo, as also in several private schools in the city. There are approximately 500 women physicians in Japan now, she says, and 400 women medical students. Dr. Inouye was the only delegate from Japan to the Y. W. C. A. International Conference of Women Physicians, in session during September and October.
